

Global Environmental Policy

Commitment to environmental performance and prevention of pollution is reflected in the business objectives and commercial priorities of TI Automotive. We encourage the conservation of resources through cooperation with local regulatory authorities and compliance with local regulatory requirements.

Employees

Employee involvement in environmental issues will be encouraged through awareness and training. Our principles and practices enables them to perform in an environmentally responsible manner.

Customers / Suppliers / Contractors

We will work closely with our stakeholders to communicate our policy guidelines and environmental performance objectives that apply to their products or services.

Governance

We will monitor and assess all of our facilities to ensure continued compliance and improvement through the use of an integrated quality system and achievement of third party certification to ISO 14001.

Facilities

Lead facility management will create, enforce and be responsible for a documented environmental process that is compliant to applicable local legal requirements.
