

Global Purchasing Policy

TI Automotive and its suppliers work together to deliver best-in-class value to our customers. Our charter is to develop a global competitive advantage. We value communication and set clear supplier performance expectations for cost, quality, delivery and technology measured on a monthly basis.

Commodity strategies

We establish and drive commodity strategies that optimize our regional and global buying power — resulting in long-term supplier relationships.

Supplier communications

We expect honest and open, fact-based negotiations with full transparency of pertinent information which may affect our business.

Common global policies

We encourage early supplier development by providing updated and standardized policies that give clear direction, support disciplined processes and strengthen program execution.

Supplier development and quality

We reward suppliers who show acceptable Global Supplier Performance Rating (G.S.P.R.) scores and who pursue continuous improvement activities.
